■ One Token,
Infinite Possibilities.

■ The Reimagined QDX

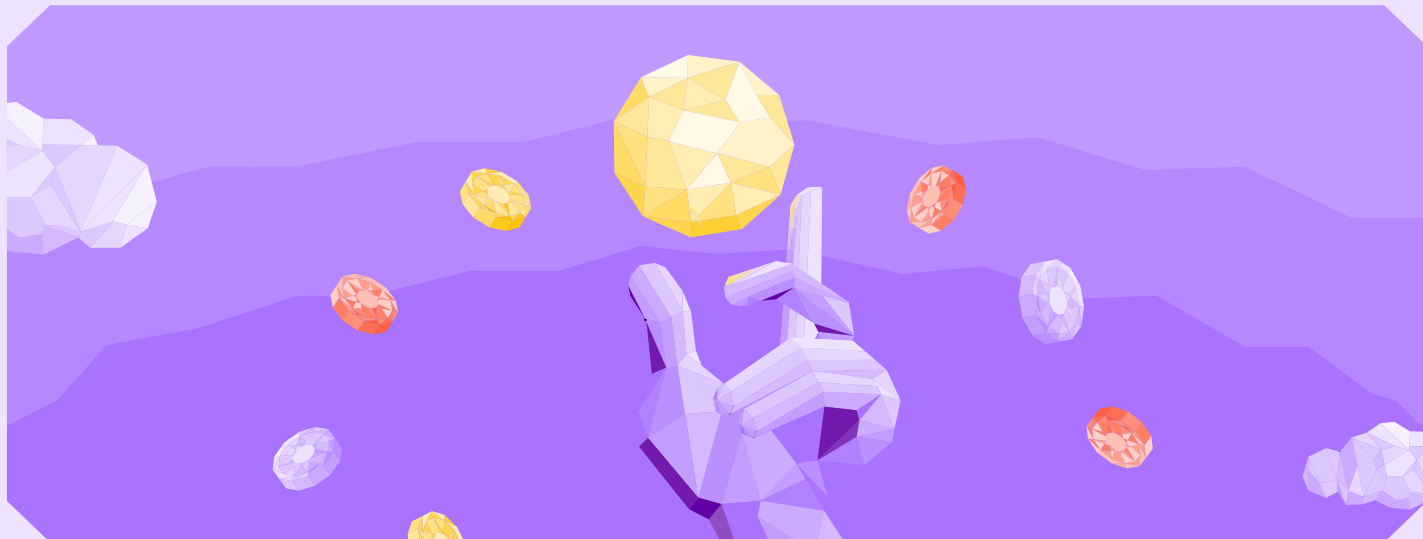

WHERE OPPORTUNITIES ARE BOUNDLESS

Picture a world where every action you take unlocks endless opportunities; this is the promise of QDX — the heartbeat of the Quidax ecosystem.

First launched in 2021 as the utility token of Quidax, QDX has evolved into something far greater than the average exchange token. The Quidax token has been reimagined as the key to a groundbreaking Quidax ecosystem carefully designed to empower you.

QDX & The Quidax Ecosystem

QDX is a native platform token issued and backed by Quidax, a leading global crypto exchange founded in 2017 and launched in 2018. Over the years, Quidax has established a proven track record of excellence and is trusted by over 1 million customers in 70+ countries.

We are building for a world where people are free to move their money across borders, just like sending a text message.

Buchi Okoro, CEO

QDX is tied into everything at Quidax and offers various benefits to our amazing Quidaxians, who are at the heart of everything we do. Beyond being the ecosystem's utility token, QDX is an advantage. It is a valuable, deflationary asset that will grow alongside the Quidax ecosystem. As a QDX holder, you will enjoy lower trading fees, higher interest rates on savings, and more exclusive benefits. We're not just building a token together; we're building a legacy.

■ Quidax 3.0

WELCOME TO Quidax 3.0

A GROUNDBREAKING ECOSYSTEM

Quidax 3.0 is a game-changing upgrade that will make your crypto journey effortless, rewarding, and exciting. It is the rebirth of an ecosystem of unlimited possibilities across centralized and decentralized finance (CeFi and DeFi), and QDX is your golden ticket to participate in it.

As always, our top priority is you — our Quidaxians. Our 3.0 upgrade boasts a fresh new interface meticulously designed with your needs in mind. Despite being packed with advanced features, 3.0 maintains the simplicity that defines Quidax. We're committed to efficiency and providing you with the best cost-value ratio. With QDX, you can enjoy even lower costs (trading fee discounts) and more exclusive benefits. We aim to provide you with the finest experience that will set you up for success across our wide range of products and services. After all, your success is our success.

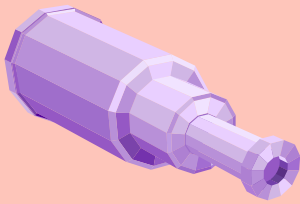

Quidax 3.0 Features

Quidax Orderbook

Are you ready for an improved spot trading experience with more control and opportunities? Gear up for a more robust order book with new features (such as our automated copy trading bots that allow you mirror the trades of top-performing traders in real time), a variety of trade pairs, enhanced performance, a high order match rate, and low trading fees. With QDX, you will enjoy even lower trading fees.

Quidax Futures

Quidax Futures makes trading crypto derivatives easier and more rewarding than ever. It also means there are more trading choices for you on Quidax. Like Spot trading, you can also reduce Futures fees by paying with QDX.

Quidax Web 3 Wallet

Our Web3 wallet is a self-custody wallet built within the Quidax app to give you greater control and ease while exploring the decentralized world. This exciting Web3 portal makes it easy and safe to interact with decentralized apps like the QDX Raffle and other Web3 utilities in one place, effortlessly integrating them into your daily life.

Quidax Staking

Quidax Staking allows you to earn rewards by locking your assets in various staking activities on Quidax. Staking QDX will attract a higher interest rate than other cryptos.

Quidax Launchpad

Quidax Launchpad is an efficient way for projects to raise money by holding token sales before getting listed on Quidax. Our team will properly vet these projects to ensure they have strong fundamentals and growth potential. This process gives more credibility to the token projects. As an investor, you get the chance to get in early and buy tokens at a discounted price in a safe environment before they are listed. You must hold QDX and subscribe to a specific token sale to participate.

How the Tokenomics Sets QDX Up for Success

1 Token Vesting

Our token vesting mechanism is carefully designed to ensure a controlled distribution. The 423 million locked QDX tokens will be released over a 10-year vesting period with a 1-year cliff.

No tokens will be released during the cliff year (2026). This period ensures the ecosystem matures and gains traction before more tokens are unlocked.

Over the course of 10 years (2027-2037), the locked QDX will be gradually released into circulation through a steady and predictable flow. This schedule is designed to maintain the value of QDX by preventing market flooding and reaffirms our unwavering long-term commitment to the project.

Total Locked Tokens:
423 million

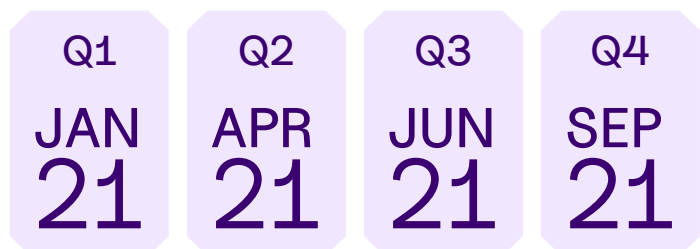

Cliff Period:
2026

What it Means for the Ecosystem

Vesting QDX is more than just a tokenomics strategy – it's a promise. We are letting you know that we are here for the long haul. The vesting mechanism also helps to avoid sudden inflation and ensures the ecosystem grows organically.

Every unlock event benefits long-term holders. During the vesting period, 5 million QDX would be unlocked yearly for community incentives, rewarding those who believe in the vision of the QDX and Quidax ecosystem.

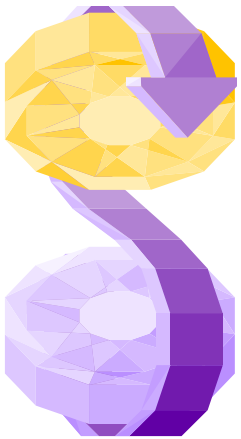

2 Deflationary Mechanism

Token burning is a core aspect of the token economy, which prevents inflation and maintains QDX's scarcity. During these burn exercises, a portion of QDX is sent to a black hole address so it can never be retrieved or accessed.

QDX Raffle Buy-back & Burn

The QDX Raffle smart contract includes a periodic buy-back and burn exercise as a deflationary mechanism. At the end of each round, 20% of the revenue from the round's entry fees will be reserved for burning. After every four rounds, these reserved funds will be used to buy back QDX tokens from a major decentralized exchange's BNB/QDX pool. The tokens will then be burned out of circulation.

Interoperability

While Ethereum is the base network, 77 million QDX have been bridged to Binance Smart Chain (BSC) by Chainport. Our partnership with Chainport was to ensure a secure bridging process and prevent the risk of hacks.

QDX's interoperability allows you to engage with more than one network. This freedom unlocks access to diverse markets and improved trading opportunities. The availability of QDX across chains also translates to broader use and adoption, increasing the demand for QDX.

■ The QDX
Advantage

VIP Benefits

TRADE SMARTER, PAY LESS

Why settle for the ordinary when you can be a VIP? In our tiered VIP system, the more QDX you hold, the more access you have to benefits like lower transaction fees, priority customer support, or exclusive access to new features on Quidax. Generally, holding QDX means reduced transaction (trading, withdrawal & deposits) fees on Quidax.

Qdx Raffle

LOSING ISN'T IN THE CARDS

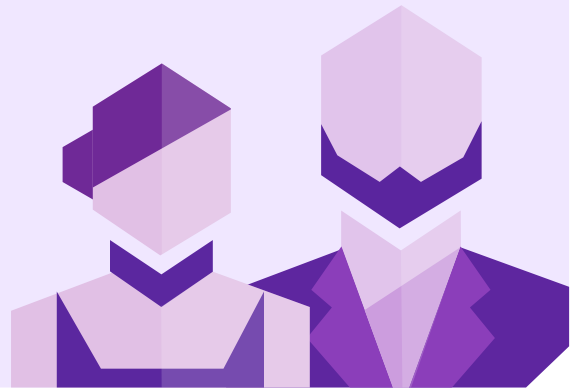

Get ready for the ultimate Play-to-Earn experience on the BNB Smart Chain! QDX Raffle is an exciting Web3 game played using Quidax cards. The Safari card is the base card, while Stellar, Aurora, and Zenith are premium cards obtained through a progressive upgrade. Safari is your entry ticket to our draws, where you can win mouthwatering prizes. But that's just the beginning!

The draws aren't the only way to profit. Upgrading and holding premium cards allows you to earn passive income. And it gets even better: you can invite your friends and cash in on referral bonuses every time they win. Plus, your Quidax cards aren't just game pieces – they can be traded on NFT marketplaces, giving you even more ways to profit.

Community Rights

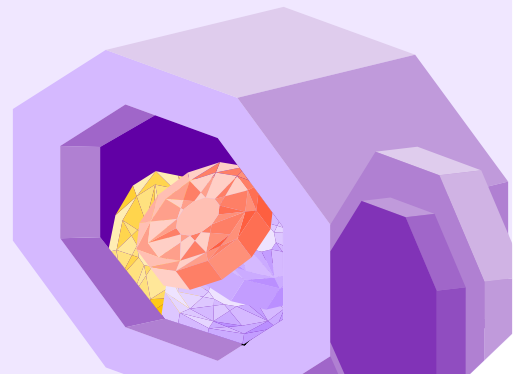

GRAB A SEAT & INFLUENCE THE FUTURE.

QDX is the glue that binds our community. We're building a thriving QDX community of customers, developers, and partners. In this ecosystem, you have a voice in shaping the ecosystem's future. As part of our community, you also enjoy exclusive events, educational sessions, AMAs, and the QDX Educational Content Hub.

Passive Income

LET YOUR TOKENS DO THE HEAVY LIFTING.

QDX offers various ways to earn a passive income. It's too easy. Stake, kick back, relax, and watch your rewards grow without lifting a finger! You will receive airdrops whenever new tokens are listed on Quidax.

Disclaimer & Risk Warning

QDX is publishing this Whitepaper solely for informational purposes, and it does not constitute an investment opinion of QDX, Quidax, and associated platforms. Nothing in this Whitepaper is an offer to sell or the solicitation of an offer to buy any tokens

Nothing in this Whitepaper should be treated or read as a guarantee or promise of how QDX's business or the tokens will develop or the utility or value of the tokens. This Whitepaper outlines current plans, which could change at its discretion, and the success of which will depend on many factors outside QDX's control, including market-based factors and factors within the data and cryptocurrency industries, among others. Any statement about future events is based solely on QDX's analysis of the issues described in this Whitepaper. That analysis may prove to be incorrect.

Investors should clearly understand the risks of QDX. Trading digital assets involves significant risk and can result in the loss of invested capital. Before investing in QDX, you should fully understand the risks involved, consider your level of experience and investment objectives, and seek independent financial advice if necessary. Risks include, but are not limited to, policy and regulation changes, compliance, the business cycle, hacking, technology development delay or failure, management risk, price fluctuation, etc.
